Objective

Versatile **Fullstack Developer** with **over five years of experience** in building scalable, user-focused applications. Recently completed a four-year project developing a **comprehensive CRM system**, incorporating **multilingual** support, advanced backend integrations, and tailored **consulting** for enhanced business operations. Open to new opportunities from **December 2024**, seeking roles where he can leverage his **full-stack expertise** to drive impactful solutions.

Key Skills

Frontend:
Vue.js, Vue Composition API, TypeScript, JavaScript, HTML5, SCSS, CSS, Bulma, NaiveUI.
Backend/Server-Side:
Hasura GraphQL, Node.js, TypeScript, Express.js, **Auth0**, JWT, **Firebase** Authentication.
API & Cloud Services:
REST, **GraphQL**, SendGrid, Cloudinary.
Version Control: Git, GitHub, GitLab.
Databases: **PostgreSQL**, MySQL, MongoDB.
DevOps: Heroku, Digital Ocean, **Docker.**
Languages:
English (Proficient, C1), Swedish (Proficient, C1), Turkish (Native)

Nationality

Swedish citizen

Professional Experience

Freelance Fullstack Developer – CRM System Project
August 2018 – Present
Confidential Company (Freelance), Malmö, Sweden

Public Frontend Development: Developed a customer-facing CRM frontend using Vue.js and TypeScript, supporting three languages through full internationalization, enhancing accessibility for a global user base.

Internal CRM Frontend: Built an internal **CRM** system for company use with **Vue Composition API**, JavaScript, and Auth0 for secure **authentication**. Integrated Vue-Apollo client, allowing **seamless data flow** across multiple business modules, including:
Order, Delivery, Invoice, Customer, Marketing, Collection, Payment, Reminder, Utilities, and Admin modules.
Backend Integrations:
Primary Backend: Designed and maintained a **Hasura GraphQL** backend for efficient database management and responsive data handling across CRM modules.
Secondary Backend Services: Developed a TypeScript-based backend for **email services** and image management, utilizing SendGrid for secure email dispatch and Cloudinary for optimized **media uploads**, ensuring secure and seamless processing.
Consulting & Reporting: **Provided consulting** on CRM implementation and best practices, created custom reports, and supported **business development strategies**, aligning CRM features with **evolving** company requirements to optimize

Professional Experience

Additional Project Highlights

Customized CRM Features: Developed multiple CRM modules tailored to support order processing, payment, and customer management, which resulted in a 40% increase in operational efficiency.

Enhanced Backend Security: Integrated Cloudinary for image uploads and SendGrid for secure email handling, reducing potential security risks and improving processing speed by 50%.

Internationalization: Successfully implemented multilingual support for the CRM, increasing user accessibility across three languages.
